

## VIDEOMANAGER CLOUD SERVICE

All the power of VideoManager, delivered as a service

- ✓ **No software to install:** Secure, browser-based access to the service
- ✓ **No software to manage:** Edesix will manage the platform and software for you
- ✓ **No licensing or software assurance to worry about:** The service covers it all
- ✓ **No infrastructure to configure:** Plug-and-play hardware without the IT complications

THE BENEFITS OF VIDEOMANAGER WITH NOTHING MORE THAN A BROWSER AND A NETWORK CONNECTION

**videomanager**  
Capturing Evidence for Professionals

### MANAGE YOUR ESTATE

Manage devices, review footage & create incidents

### MULTI-SITE READY

Understand, from any location, how your estate is performing at each of your sites

### SECURE STORAGE OF FOOTAGE

All recorded footage is stored securely with access granted only to you

## MANAGED UPGRADES, AUTOMATIC FIRMWARE UPDATES AND REGULATORY COMPLIANCE

By utilising VideoManager Service, you're entitled to the latest software and firmware upgrades, managed on your behalf by Edesix. This ensures you always have the highest performing solution for managing your wearable cameras.

# ABOUT VIDEOMANAGER CLOUD SERVICE

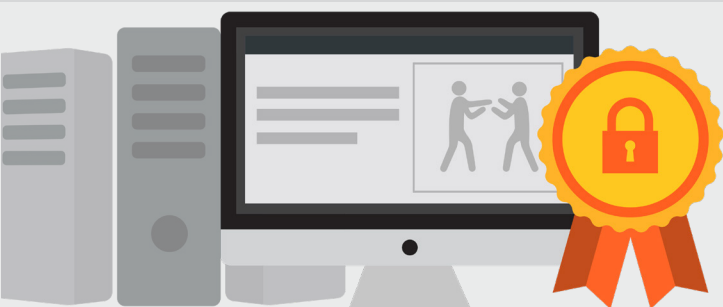

## SUPPORTS ALL VIDEOBADGE & VIDEOTAG CAMERAS

VideoManager service allows you to manage your entire estate of Edesix wearable cameras from one, secure, cloud-based location.

## EASY NETWORK DOCKING

VideoManager service works with all Edesix network docking solutions - including the EdgeController for home workers and small workgroups, and the DockController for larger sites.

## PER-CUSTOMER INSTANCES FOR COMPLIANCE & DATA SECURITY

You can rest assured that, with VideoManager Service, your data is completely secure, and accessible only by you.

Evidential allowance	100 hours per camera	Unlimited (VideoBadge & VideoTag footage)
Max estate size	Up to 1000 cameras. Up to 100 video review users.	Unlimited cameras & review users

### Automatic Software Updates

With VideoManager Service, you'll receive the latest software updates & feature releases, meaning you're always using the latest in BWC management technology.

### Datacontroller / Dataprocessor Separation

With secure, isolated footage, VideoManager Service guarantees your data is accessible by you only. Utilising VideoManager Service means you own and are liable for your own data. Edesix cannot access or share your recorded footage.

### Import your Existing Data (Ultra only)

Ultra users can import existing footage and data into VideoManager Service, meaning no loss of information or complex system swap-over.

### One Simple Payment

VideoManager Service keeps things simple - no need to pay for licences and assurance, or worry about managing software updates or storage; this is all handled for you through purchased service credits.

### Automatic Camera Upgrades

Cameras connected to VideoManager service are automatically upgraded to the latest camera firmware.
